A GOLD MEDAL

FOR
WILLIAM HUME.

The International Fisheries Exhibition, at London, has been one of the events of the year. A cablegram from Messrs. Earl & Cox, the United States Delegate, announces that the Fish Commission from this country received eighteen gold medals, one of which has been awarded to William Hume, the pioneer salmon canner on the Columbia River. This is the only canner receiving a medal at the Exhibition at London.

These goods are kept for sale by the can, case or car load, by G. F. BROOKS.
Salt Lake City, Sole Agent for Utah.

LATEST TELEGRAMS.

Heavy Fire.

Denver, 31.—The Republican's Garfield, Colo.: Fire broke out at this place early this morning, soon getting beyond control. It reached the store of Perry Bros., containing over 600 pounds of giant powder, which exploded, hurling the building, timber and fire in every direction, destroying the postoffice, hotels, and in fact the entire business portion of the town. Loss, over \$20,000; insured one-third. A number of people were knocked down and badly stunned; only one person fatally injured. The people of Garfield are in a sad plight, the majority are homeless, without houses, food or clothing for the winter.

Case Dismissed.

San Francisco, 31.—Edward Hyams, of the clothing firm of Hyams Bros., New York and San Francisco, against whom a judgment of \$78,000 was obtained by Herman Shogwald, who afterward had Hyams arrested at Elko, Nev., charging perjury and a fraudulent attempt to defeat creditors, was released today. A compromise has been effected. The case was dismissed.

The Explosions.

London, 31.—In relation to the explosions, investigation made by scientific advisers to the war department led to the conclusion that nitro-glycerine in some form was the agent used in both cases. Later inquiries confirm the early statement that a large number of people were injured. In addition to over thirty treated at the hospital, a large number are attended by private surgeons. One of the victims, a corporal of hussars, says he was talking with a friend on Praed street when there was suddenly a very bright light, immediately followed by a terrific report. He was struck by something and almost knocked insensible. When the train arrived at Edgware road he staggered across the platform and was picked up by a soldier. He remembers nothing more. This is only one of many narratives.

London, 31.—The explosions caused intense excitement in Irish circles in London. The Irish all most unanimously think the outrages were due to the deliberately planned machinations of the enemies of the National party of Ireland, who intend to create an anti-Irish feeling in England. They think, to have a perfectly impartial jury to try O'Donnell. It is also remarked that the explosions occurred about the moment when Davitt was opening his address in St. James' Hall. It is stated the police are unaware of the presence in London of any of O'Donnell's dynamiters. However, all Irish rendezvous are closely watched.

Renfrew Speechifies.

London, 31.—There was an immense attendance to-day to witness the ceremony of closing the International Fisheries exhibition. Replying to an address and report showing the complete success of the exhibition, the Prince of Wales stated that the Queen had followed the success of the exhibition with great interest, and had requested him to express her hope that it would be a lasting benefit to the fishing population of the kingdom. He said, after all the expenses had been paid, a substantial surplus would remain, which should be devoted to improving the welfare of fishermen in the country and the promotion of the interests of fisheries in order that the calamities incident to a fisherman's life might be alleviated. The Prince was gratified at being able to continue the work of his father in giving opportunities for the peaceful emulation of all nations, and thus diverting men's minds from international rivalries, by which all suffer, to those by which all gain. The vast attendance at this exhibition has led him to hope that the buildings might remain and be employed for the use of other exhibitions. He desired to see here a hygienic exhibition in 1884, one of the progress of inventions in 1885, and he proposed holding here a colonial exhibition in 1886.

Doesn't Know About It.

Chicago, 31.—Concerning the report from San Francisco connecting his name with the proposed new railroad to San Francisco in competition with the Central Pacific, ex-Governor John D. Beveridge, of Illinois, said: "I can give you no light on the subject. I am not personally interested in it. I know Bridges and know he has been agitating the matter."

Fatalities.

London, 31.—An express train from Liverpool to London, while running at the rate of fifty miles an hour, collided with an empty car. Two persons were killed and many injured.

The drowned from the Alhambra include the captain, mate, and captain's daughter. Twelve were saved.

The False Prophet has Nerve.

Cairo, 31.—The government has received advice from Drum, stating that 1,200 rebels were killed at Adellat and Melbio, some distance from Elabed, during engagements with the forces under Hicks Pasha. El Mahdi, the false prophet, stood under fire during the engagement.

Cheap Papers.

Detroit, Mich., 31.—The Post and Tribune and Free Press, two morning dailies of this city, will announce to-morrow a reduction in price from \$10 per year to \$7, and from 5 cents per single copy to three cents. No reduction will be made in the size or amount of reading matter.

N. P. Employees Discharged.

Minneapolis, Minn., 31.—Tribune's Brainerd special: This evening 469 employees in the Northern Pacific shops were discharged on telegraphic orders from New York.

Bad Burglars.

Topeka, 31.—Burglars operating in a drug store at Whiting, Kansas, fired the building, causing the destruction of property valued at \$20,000.

Collision and Loss of Life.

London, 31.—The steamer Holyhead came in collision with the German ship Alhambra, bound from Liverpool to New York, when twenty-five miles off Holyhead. Both vessels sank. Thirteen of the Alhambra's crew and two of the Holyhead's were drowned. The remainder were picked up and landed at Holyhead. Much relief was felt in Dublin when the news of the safety of the Holyhead's passengers was received.

The collision occurred at 11 o'clock Tuesday night. The night was mild and fairly clear. By some means the Alhambra got across the track of the Holyhead and a frightful collision occurred. The Holyhead's engines were reversed when it was found a collision was inevitable. The Alhambra was cut down to the water's edge. The captain of the Holyhead had lines thrown over the bows and lowered two boats. There was not the slightest panic on board. The boat saved twelve of the Alhambra's crew. One man clambered over the bows. When it was discovered the Holyhead was fast sinking, two more boats were lowered and the passengers and crew safely embarked, excepting the quartermaster and a boy who were in the fore-castle. In a few minutes the Holyhead disappeared. At 3 o'clock this morning the wind freshened and the sea increased and the boats kept afloat with great difficulty. At 8 o'clock a steamer hove in sight, bore down and took all on board. The survivors are much distressed.

The Labor Conference.

Paris, 31.—In the labor conference this afternoon, the English, Italian, Spanish and French delegates spoke. Henry Broadhurst, honorary president of the conference, advised the workmen to be patient. Large capitals, he said, suffered greatly from competition. London had a hard fight against the English provincials and Belgians, but more especially against the Germans, who swarmed there. The following resolutions were adopted: This convention records its opinion that the principal end to be pursued is to limit the hours of labor and thus render supportable the position of the workmen of all nations. This is attainable in two ways, namely: Legislation for the protection of the weak against competition, and the organization of workmen who should be united and disciplined. It is the duty of workmen to direct their efforts against the unjust laws which render the organization of labor impossible and hinder international legislation, which is so necessary to ameliorate the condition of the working classes.

In the evening the speakers urged French workmen to devote more attention to business and less to politics, and to organize trades unions.

Yellow Fever.

San Francisco, 31.—The Pacific Mail steamer, San Blas, which arrived this morning from Panama, brought three cases of yellow fever.—John Murphy, cabin passenger, New York; Francisco Perez, Acapulco, and the steamer's cook. The last two are reported dying. Murphy is recovering. The vessel failed to fly the yellow flag, and the surgeon was ignorant of the sickness—yellow fever. On the way up they stopped at Acapulco, Mazatlan and San Blas. No communication was held with the latter place. The fever is still raging there. At Mazatlan they took thirty passengers and got a clean bill of health. The first case developed after leaving Acapulco. The well passengers were transferred to the steamer China, the sick ones to the fever floating hospital.

A Fierce Joke.

Chicago, 31.—Daily News' Lincoln, Ill.: Coroner Boyden claims to have secured important evidence in the way of a written statement from Wendell, the tramp whom he visited at Hampton, Iowa. He declines to divulge its nature to reporters, but it is said he has given others its substance as follows: Wendell and a companion surprised Carpenter and Zora Burns in a compromising situation; that they subsequently demanded \$30 as the price of their silence; that he gave them \$20 with the remark that he would give \$1,000 if he could find her dead, and that when they declined to enter into the scheme, he turned the matter off as a joke.

Heavy Robbery.

Virginia, Nev., 31.—Two masked men robbed the vault of the county treasury of \$8,000, late last night, then seized the treasurer and locked him in the vault. The affair is considered mysterious, as \$8,000 is an amount in silver too heavy to pack off.

Failure.

Toronto, 31.—Thomas Wallis & Sons, commission merchants, have failed. Liabilities, \$80,000; assets small. Canadian creditors are secured, but the English, who are largely interested, will not receive more than three cents on the dollar.

Very Dramatic.

Nashville, Tenn., 31.—The trial of James P. Briley, the murderer of Robert T. Bates, committed in the arena of a circus on October 22, which caused such a sensation at the time, progressed rapidly to-day. Mollie, Robert Bates' fiancée, a beautiful petite brunette, drew a plan of the circus surroundings on the courtroom floor, explained the positions of the slayer and the slain, and acted in a highly dramatic manner the part played by both participants in the tragedy. She said Briley came across the seats 100 yards from where Bates was standing, holding a revolver in his arms, drew then when the wounded man fell down, with the child still clasped in his arms, shot him in the centre of the breast. Another witness proved the same facts, besides that the murderer said before shot: "Take that you son of a—, you killed my brother ten years ago." Several witnesses testified to the panic created by the shooting among the audience. Defendant is not cross-examining any witnesses. It is supposed he is going to introduce no testimony, but rely upon the oratorical powers of the able counsel engaged.

Big Fire.

Savannah, Ga., 31.—A fire broke out in Garnett, Stubbs & Co.'s warehouse at 12:30 this afternoon. In the building were stored 3,000 bales of cotton, all of which was destroyed. The fire spread to buildings on Joachim, Farm, Mills, Indian and River streets, and was checked when it reached West Broad street and Indian street. The electric light works and Tyrant's foundry were among the principal places burned. The rice mills, stores and other property on the north side of River street were saved. Most of the houses burned were wooden structures occupied by poor people. It is impossible at this hour to give an accurate account of the losses, but they are put down at about \$1,000,000.

Augusta, Ga., 31.—In response to a dispatch from the Mayor of Savannah, asking help to suppress the conflagration, the mayor sent a steam engine and two horse carriages in charge of the chief of the department, with thirty men. A special train left for Savannah at 6 p.m.

Light Punishment.

Galveston, Tex., 31.—Four years ago three Mexican travelers, two women and a man, were ambushed while asleep, twenty-five miles from Laredo, and the man and one woman were instantly killed by bullets from Winchester rifles; the other woman was left for dead by the assassins, who plundered the camp and escaped across the Rio Grande. A month ago Cecilia Chevarre, arrested for horse theft, was recognized by the survivor as the murderer, and to-day she was found guilty and the punishment assessed at death. Antonio Lopez was also convicted to-day of murder in the first degree and given the penitentiary for life. Lopez was a member of the party which, in 1880, murdered Henry Bishop in Hidalgo county, robbed his store and ravished his young wife and Mexican servant girl.

Foreign Notes.

Alexandria, 31.—Two cholera deaths here yesterday.
Montreal, 31.—Justice Loranger dismissed, on a technicality, the case against the collector of customs for confiscating as immoral the works of Voltaire and Paine. The court did not enter upon the merits of the case.

Stamford, the American confidence operator, pleaded guilty to forging a check on the bank of Toronto. Forged American bonds were found with Stamford. He tried to shoot the officer who searched him. Lima, via Galveston, 31.—President Yglesias issued a proclamation to the people of Arequipa, advising them to accept the situation peacefully, as resistance would be useless; said he was about to offer a guarantee for the safety and recognition of the high position of General Cáceres.

Prize Fight.

Caldwell, Idaho, 31.—A prize fight for \$1,000 aside, between McFadden, of Winnipeg, Manitoba, and Martland, of St. Louis, took place here to-day. It ended in the fourteenth round, Martland receiving punishment from which it is not thought he can recover. He was carried from the ring in an insensible condition.

Chinese Brokerage.

San Francisco, 31.—The Bulletin says: On reliable authority a regular system of fraudulent brokerage is established in Canton to furnish Chinese traders certificates from ten to fifty dollars each. The cost depends upon the standing of the applicant's friends, who vouch for him.

Arrested.

Chicago, 31.—Ellery H. Andrews, clerk in the Northwestern National bank, was arrested to-day on a charge of embezzling \$10,000.

The Bedouin Fight.

London, 31.—A Khartoum dispatch says: Between 25,000 and 30,000 Arabs attacked Hicks Pasha's army; 10,000 Arabs were divided into two columns and attacked the Egyptian square on two sides, thus enabling Hicks Pasha to use his 6,000 Remington rifles, Krupp guns and Nordenfett's rocket batteries. The Arabs were only armed with lances, and falling after some time to reach the square they fled, leaving 8,000 dead and all their women, food, baggage and animals behind. Hicks Pasha pursued the main body of fugitives and overtook them at Meibas, where he found Elmahdi posted with fugitives and a body guard of 2,000 cavalry. The Arabs again attacked and were repulsed with great loss. Elmahdi's horse was killed under him and he was reported to have been cut down by light cavalry sent in pursuit of him. Hicks Pasha has taken possession of El-Obied and the government treasury. The Egyptians' loss is nothing.

The U. S. Central.

San Francisco, 31.—Lyman Bridges, chief engineer of the United States Central railroad, the new projected line from San Francisco to Denver, in reply to the statement that the name of Richard King, president of the National Bank of Commerce of New York was unauthorized, says he holds King's power of attorney, that King has heartily endorsed the project and paid his subscription. Bridges says he doesn't believe King ever used the words attributed to him, that the scheme is one of the Central Pacific to undermine the project.

The N. P.

Portland, Or., 31.—General Superintendent Clowry, of the Western Union company, to a Northwest News reporter said that nine gangs of men were at work completing the construction lines of the Northern Pacific between St. Paul, Portland and Puget Sound. An additional duplex wire was constructed at Bismarck and Portland for through business. The company now has two wires to Portland and Tacoma; the second wire will be built to Seattle. "Portland needs these facilities," continued Colonel Clowry; "our intention is to place her on a first-class business basis for telegraphic facilities."

Democratic Attack—Disappeared.

Reading, Pa., 31.—A sensation in political circles was created to-day by Congressman Ermentrout being knocked down in the street and beaten by George Smith, a prominent Democratic politician. The attack was made on account of differences between the parties relative to the management of local politics. Ermentrout was not seriously hurt.

John C. K. Heine, a prominent lawyer, has mysteriously disappeared. It is alleged he has retained \$13,000, collected for the heirs of an estate and is also charged with getting worthless checks cashed.

The Mexican Debt.

City of Mexico, 31.—Orders have been telegraphed Senator Carlos Rivas, the Mexican government's special agent in London, to recommence negotiations with British bondholders for the settlement of the Mexican debt. His instructions will enable him to overcome previous obstacles and arrive at a satisfactory result.

A Brutal Wretch.

Philadelphia, 31.—A tragedy resulted from croquet on Sunday, three miles from Woodbury, N. J. The players were two men and two women, Germans. Rudolph Hines became angry because his wife beat him, and he kicked her with his heavy cowhide boot; she became unconscious and died soon after.

Poisoned.

Cincinnati, 31.—Fourteen persons in different families living in the western part of the city, have been attacked with symptoms of poisoning. One died to-day and a number of others are seriously ill. It is thought the poison was administered in some way through food bought at a grocery.

O'Donnell's Wife.

Chicago, 31.—A Times Philadelphia special says the wife of the avenger O'Donnell is working as a domestic in Philadelphia. She will send to London an affidavit that he told her he was going to the diamond fields of Africa.

Another Big Fire.

Savannah, 31.—A Canton warehouse and a large number of buildings have been wiped out by fire, twelve lives lost, and property destroyed valued at \$1,000,000.

THE REV. GEO. H. TILAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Z. C. M. I. Drug Store. 30
